Sidharth Premanand

Product Designer – UX/UI – Figma – Design Systems – Connected Device & Health-Tech UX
Weimar, Germany | +49 171 927 9559 | Mail me | LinkedIn | Portfolio
Open to Werkstudent / Internship / Full-Time UX Roles

Professional Summary

Product Designer with 3+ years of industry experience delivering shipped UX for Ather Energy (India's leading EV brand) and MediBuddy, across connected-device UX, e-commerce, and health-tech. Contributed to India's Best Design Award 2024 (Ather app) and a Kyoorius Award. Currently pursuing an MSc in Human-Computer Interaction at Bauhaus-Universität Weimar, strengthening user research methods, cognitive psychology, and systems thinking. Proficient in Figma, end-to-end design process, design systems, and cross-functional Agile collaboration. Seeking a UX Designer role to bring research-driven, systems-level design thinking to product teams.

Core Skills & Tools

Design & Prototyping: Figma, Adobe Suite, Zeplin, Sketch, Miro, ProtoPie, Jira, Atlassian, MS Office
UX Methods: User Research, Usability Testing, Wireframing, Interaction Design, Information Architecture, User Flows, Persona Development, Storyboarding, Design Thinking
Design Systems: Component Libraries, Design Tokens, Dev Handoff, Agile/Scrum, Cross-Functional Collaboration
Domain Expertise: Connected Device UX, Automotive UX, E-Commerce UX, Health-Tech UX, Mobile UX, HCI Research
Frontend: HTML, CSS

Professional Experience

Product Designer **Jun 2022 – Aug 2025**
Sketch Brahma Technologies – Bengaluru, India *3 yrs 2 mos*

Lead designer across client engagements spanning EV, health-tech, automotive, and SaaS – including Ather Energy, MediBuddy, Mahindra Yabx, and Wisedrive. Owned the full design process on all projects: discovery research → wireframing → prototyping → usability testing → developer handoff.

- **Ather Energy (Consultant via Sketch Brahma)- EV, Connected device UX** – Redesigned test ride booking UX, introducing a Home Test Ride (HTR) option; improved booking-to-delivery conversion from **3% to 8% (+167% lift)**
- Revamped Ather Shop mobile UX (85.9% of traffic); improved product page-to-checkout conversion from **2.40% to 6.18%** and store conversion rate from ***0.28% to 0.39%***
- Redesigned phone number-based login flow, reducing authentication friction and improving new user onboarding completion
- Contributed to the Ather app revamp and design system, recognized at India's Best Design Awards 2024
- Built and maintained a Figma component library used across multiple product squads, ensuring design consistency at scale
- Directed product studio photography shoots for Ather Shop – managed pre-production, on-set direction, and post-production quality for e-commerce imagery
- **MediBuddy (Consultant via Sketch Brahma) health-tech UX** – Led end-to-end UX for the Meds Refill feature, from foundational user research and persona development to high-fidelity Figma prototypes and developer handoff
- Designed Meds Order Tracking UI to give patients real-time prescription delivery visibility, reducing support queries
- Mapped and redesigned the Diagnostic Centres booking flow for the Labs pod, streamlining the end-to-end lab booking journey
- Conducted user interviews and foundational research to surface friction points across prescription and diagnostics journeys
- Collaborated with PM, engineering, and marketing stakeholders across concurrent product squads using Agile methodology

UI Designer (Intern) **Dec 2021 – Mar 2022**
Novatium Solutions Pvt. Ltd – Chennai, India *4 mos*

– Designed user interface components and screens for Novatium's digital product suite
– Collaborated with developers and testers to ensure UI consistency and responsive design across platforms

Education

MSc, Human-Computer Interaction **Oct 2025 – Present**
Bauhaus-Universität Weimar – Weimar, Germany
Focus: UX Research Methods, Cognitive Psychology, Interaction Design, Systems Thinking

BSc, Computer Science **Aug 2018 – Aug 2021**
Bishop Heber College – India *GPA: 8.1/10*

Honors & Awards

– **India's Best Design Awards 2024** – Ather Energy App Revamp; contributor as product designer on the Ather app redesign and design system project
– **Kyoorius Award** – Design excellence recognition for Ather Halo
